Important to Parents.

WINER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS.

THIS remedy is safe in its operation and more easily administered than any other.

THE SYMPTOMS GIVEN OF DISEASE among children is to be attributed to Worms. They give rise to numerous diseases, and are the more fatal because not suspected; were parents to give this subject more attention, and carefully observe the symptoms which indicate the existence of worms in bowels, the lives of many children would be saved. Some of the symptoms are as follows: the countenance is of a pale or leaden, color, and surrounded with occasional flushes, the eyes are heavy and dull, bad breath, itching in the nostrils the sleep is disturbed, the patient often awakening in great fright, and inclined to starting and grinding the teeth, the appetite is irregular, being sometimes voracious and at others (visible occasional vomiting, &c.

Winer's Canadian Vermifuge has acquired a reputation surpassing that of any other medicine of the kind, and is daily increasing in popularity wherever it is known and used, it is *universally approved*; it possesses properties which no other article of the kind does, it is more prompt and efficient in its action, and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing, who resides in Cleaveland, Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms" it may indeedbe relied on with the utmost confidence, as it has never been known to fail; this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability, who all testify to its superior efficacy, and recommend it as a never failing remedy.

READ AND BE CONVINCED.

We, the undersigned, have frequently administered a medicine prepared by Mr John Winer of this town, designated "J. Winer's Canadian Vermifuge," and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal.

G. W. DICKINSON, Member of the Royal College of Surgeons in London, &c.

Hamilton, C. W., Oct. 11th, 1846.

New York, March 30th, 1847.

Messrs. J. Winer & Co.: Sirs—My child of five years of age, was for more than two years severely afflicted with worms, during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,

G. G. SNEYDEN, 30 Rivington st.

☞ Be particular and remember the name "Winer's *Canadian Vermifuge*," this is the only article that can be depended on. *Remember this.*

JOHN S. SAYWARD,—Editor.

WEDNESDAY, JAN. 19, 1848.

☞ The Bangor Democrat chimes in harmoniously with the key note of the "manifest destiny" men of the loco party who think that our country should go on by hook or by crook to the largest possible extension of territory It assumes that the only way in which our country can justly indemnify itself for the war, or can indemnify itself for the expenses and losses of the war is by taking territory It tells us then that if justification and honor, and indemnity, are all to be found in the acquisition of territory and to be proportioned by the amount of that territory, then of course the larger the amount of territory the greater the glory the more conclusive the justification, the more assured the indemnity So our neighbor must be in favor of subjugating the whole of Mexico, blotting out her nationality and thus necessarily assuming the responsibility of governing the population of that country — This would cost more than it is worth This would breed difficulties not to be outgrown — This would change the whole policy and character of our government

But it is quite unnecessary for us to recapitulate the arguments which have been so well stated by Clay and Calhoun and Crittenden and Clayton, and which have appeared in our columns

Mr Calhoun eminently hit the mark when he declared that we have entangled ourselves with Mexico as if we are tied to a dead corpse

The President does not like the odious reputation of a desire to make conquest of the whole of Mexico He learns to acknowledge the indemnity result of his own measures But the result of claiming territorial indemnity and of the attempt to conquer a peace with such indemnity, clearly reaches to the entire subjugation of Mexico

The Bangor Democrat too, spitefully declared awhile since that this war was not for territory, and yet it now effects to believe that all the objects and purposes of the war and the glory of the brilliant battles which have been fought, will all be lost unless our government insists upon a large amount of territory But Mexico declaring to agree to this must be subjugated and her national existence annihilated, or in the dainty language of the day, the war must be vigorously prosecuted!

☞ We copy into our columns to day, from Parrott's Christian Citizen, an exceedingly interesting account of Hugh Vincent, written by J L Syme, the Scotch associate editor of the Citizen Mr Vincent will by and by visit the United States and our readers will then wish to know something of the man, and of his labors in the cause of humanity, and in the social and moral elevation of the masses

☞ The annual exhibition of the Universalist Sabbath School will take place this evening We learn that great efforts have been made for an interesting exhibition, and certainly those who have attended previous exhibitions of this school, and listened to their correct recitations, and heard their sweet songs will hardly fail of giving their attendance this evening

☞ The Washington correspondent of the Philadelphia Inquirer says, the Democrats will probably hold their Convention in Baltimore, on the first Monday of May next, and that they are fast concentrating on this ticket —for President, *General* Cass, or Vice President, *General* Quitman

☞ The monthly reading of original articles before the Mechanics Association in this city, will take place on Friday evening of the present week The person appointed to read informs us that the articles already in are numerous and their literary merit highly creditable, and that the evening will be well occupied

☞ The Gardiner Mechanics Association have made arrangements for a course of lectures and have invited lecturers from Bath, Portland and other places

☞ The Bath Times manifests a hankering for Gen Cass as a candidate for the Presidency on account of his opinion for the largest War measures in the Senate

☞ A neat new store commenced yesterday afternoon

To the Editor of the Whig and Courier

It is generally supposed that a certain Cashier who's office is on Main street, is the agent for the Boston Secret Mercantile Association — if it is not so it would be for the interest of this gentleman to say so, through the medium of the press Jobnica.

☞ The following is an extract from an ordinance of the city of Portland, regulating Bowling alleys

"If any person keeping any bowling alley, now erected, or having the same and control thereof, shall allow or permit the same to be kept open or used, between the hours of half past one o'clock in the evening and six o'clock in the morning, (except on Saturdays, when the same shall be closed at 12 o'clock in the afternoon,) or shall allow or permit any intoxicating drinks to be drunk in or about the same, or allow of permit any minor to be admitted or play at bowls, in such alley, without permission in writing of his parent, master or guardian, he shall forfeit and pay for each and every offence, not less than three dollars, nor more than ten dollars, to the use of the city

Consumption.

Dickens gives the following description of this sad disease, which is constantly carrying sorrow and desolation into thousands of families in New England —

"There is a dread disease, which so prepares its victims, as it were for death, which so refines it of its grosser aspect, and throws around familiar looks, unearthly intimations of the coming change—a dreadful disease, in which the struggle between the soul and body is so gradual, quiet and solemn, and the result so sure, that day by day, and grain by grain, the mortal part wastes and withers away, so that the spirit grows light and sanguine with its lightened load and feeling immortality at hand, deems it but a new term of mortal life—a disease in which death and life are strangely blended, that death takes the glow and youth of life, and life the paint and grisly form of death—a disease which need scare never cured, which parted all, or poverty could boast exemption from—whose victim sometimes moves to gaiet stridor and sometimes lies in tardy, stagnant pace, but sides or quick, is never sure and certain

☞ The following, though it has lain by some time since, we clipped it from the Express, has lost none of its importance by the delay

Correspondence of the N Y Express

WASHINGTON, Dec. 29, 1847.

Spirit to Europe—Extraordinary Explosion

The fact appears to have escaped much public attention that the present financial operations of the Government are calculated almost injuriously to influence the money market The million of dollars which last week was appropriated in a bill which passed the House as Representatives, is to meet two drafts by the Army in Mexico upon the Secretary at Washington The brokers and bankers in Mexico in the English interest are partners to the transaction, and by means of these bills they continue to get the full gold dollar specie for par, without the risk of Mexican transportation and without the payment of the Mexican duty in specie when sent from this country These for exchange, however, no sooner reach the United States than they are converted into specie and sent to England—and thus nearly the whole amount of Army expenditures in Mexico finds its way to England

The two drafts of half a million each now on their way from Mexico, are but the prelude to so many other drafts, which will have to be paid in the same coin and which will take the same course across the Atlantic It is thus we are to be drained of the precious metals, and to the forces also the war party bears to the great embarrassment of the country What does Mr Walker keep when he says that all he transactions of the Government have been in specie for the last year —that $18,000,000 have been received and enough more paid out— Nothing could be more untrue and nothing more calculated than such an untruth from the source whence it emanates Mr Walker be assured, for this and many other gross misstatements of fact, will be sure to overwhelm you Up report will all these, and out of his own mouth from his own previous reports and from tables furnished from the Treasury department he will be condemned

I am glad to see an attempt made to enlighten up the Departments in regard to the estimates sent to Congress The estimates sent to Congress at the commencement of the session are but to be relied upon Then are, I fear, sometimes purposely deficient Let me give you an example The proper military Departments are called upon to submit estimates for so many men in the field service The estimates are submitted for the number in the field and taken sent to the Head of the Department the subordinate officer is told to cut the down say from more than sixty thousand men to thirty-seven thousand men

The officer thus instructed consents, not considering from the fact that as Congress will be in session before the expenditure of the next fiscal year a remedy may be applied to the under estimate — Congress is in session and the new estimates can be submitted In the meantime the Administration cries out that Congress put it short We asked for thirty or forty millions and Congress has increased the amount Again, of the annual estimates, twenty or thirty and forty thousand extra copies are printed while those subsequent estimates are only sent to the committees and not to Congress It has not even been customary to print them at all A deceptive practice like this is much more honored in the breach than in the observance

Henry Vincent.

If it were possible to daguerreotype the play of shining sentiment, the gleam of the spirit-lighted eye, the deep and low lineation of the manly voice, and the emphasis and intonation of heart-build word, we should have the most excellent likeness of the Christian advocate portrait of Henry Vincent, the man and the orator But as the burning art does only record transitory effect (the form and feature plastic) once than one aspect of the features or moments, our friends print, for the present, have to keep with only a vague guilt ring

Henry Vincent was born in London, in May, 1813 His birth place was south in trade, and was a poor man, which latter circumstance was no disgrace to him, as he was an honest man; and honesty, we all know, is a prouder hereditary distinction than many of the patrician of last year's or any other creation

Henry Vincent was very great regret to me, originally reasonably rich and to die conqueror — Henry's rich possessions in this, that when quite a child he brought for himself to bend to a widowed mother and orphan brothers and sisters, and Vincent's origin was over all the circumstances that long strained to bind down the child of the endless poverty He has passed the ugly the relaxing dissipation of sauntering, and, like all wise men, metals, he has been purified by the process

When he was seven years of age, Vincent's parents and their family removed to Hull, in Yorkshire where the father died, and where Henry, after working as an errand boy at any honest employment he could obtain was apprenticed to a printer The drudgery and probably the orphan boy's own wayward fidgetiness of his master, and in the early boyhood Vincent had opportunities of receiving that education which had hitherto been neglected He had no money, save his own impulses—he had no brother, who had been three at an University, to instruct him in words, nor he had books, and a determined desire to know what was in them, — and who ever heard of such a youth, so uneducated, so starving in ignorance

The world of books is a very different one from the actual world Few authors have dared to compare and probably never regal degrees and more wealth has never been resigned in the republic of letters Vincent is reading to-night him to behold his dignity to earth, save to rich—to honors, save virtuous works Religion requires no other attributes in its believers Freedom has no nobler distinctions to its children The press in all the true conceptions of its sovereignty is a religion It has scarcely disinherited its virtuous human writers from prescriptive honors, and has stood by Godgranted men when corporations have trampled him under foot or they turned their eyes from wealth and mere plausible titles In books the young printer saw virtuous humanity exalted and even the most splendid overlooked The good and the true to which his nature spontaneously did homage were elevated to their true position in the ideal on of those great minds who spoke to them print, at their own fire side But when his powers of observation expanded, and when he began to turn his eyes entirely upon the world of reality, he stumbled to perceive that in thirteen all the virtues were insufficient to dignify the parish *poverty* while honor glory and adoration fell down and licked the feet of the rich, as fellow god, Mammon He required no reasoning to convince a mind like Vincent's that this was wrong that religious truths were sufficient to produce such a conviction, the sense of justice that existed deep in his heart, rejected with scorn so mean an idolatry and as he grew in years and knowledge, he grew in determination to protest against "things as they were

The struggle for Catholic emancipation in Ireland and enlisted his sympathies, and the crash of the French Revolution of 1830, awoke him from dreaming boyhood to a sense of active charge Disraeli or Attwood Bull agitation, Vincent, though quite a youth, was elected a member of Council to the Hull Land Allotment's political Union, and at was actively engaged, with the rest of the working classes, in demanding admission to the privilege of political representation The Reform Bill did not give our parliamentary representation to Hull Of a small adult population of six millions, it only enfranchised about hundred thousand of the property classes, and it left the toiling portion of the community as a population of privileged slavery, for it was shut out from the House of Commons, and left them to the operation of an unequal representation of taxation, and to every other the powers of oppression The representatives of Yorkshire and the manufacturing wards of Lancashire, the Hull passed, in spite them upon its original exclusiveness, as, while the former, the owner of its soil, as when some experienced lawyer, who admitted by acclamation, to the halls of St Stephen's, Hull paid into pounds per annum or so Henry Vincent, William Lovett, John Cobbin, and here Hall, had an insurmountable barrier, such as to leave the members here

In 1836, Vincent left home himself to the pleasure of the printer which was introduced as the Temperance Journal, a paper of the People's charter" In its original, and unmutilated form the Charter was one of the most majestic that had been given to England, if the boldness we will an abominable of its

Another Court Martial or two.

This Washington correspondent of the Philadelphia North American, under date of the 14th, says:—

"The President has this day ordered a court of inquiry for the purpose of investigating the charges against Gen Pillow and Col Duncan, which have been preferred by Gen Scott After that investigation has terminated, the court is further directed to inquire into the charges preferred against Gen Scott by General Worth, The charges against Gen Worth, submitted by the commanding general, have been disapproved by the President The court is directed to assemble at Perote, as early a day as the members can arrive It is to consist of General Towson, Paymaster General, as president, and General Cushing and General Butler, of Louisiana General Towson will start for Mexico on Monday The selection of Gen Towson is an unlucky in courts martial, and will doubtless lead to difficulty His office of paymaster general is a civil one, and might be conferred upon any individual in private life, and he holds no rank in the regular line of the army The commander of the army in Mexico will necessarily develop on Gen Butler, of Kentucky, he being the officer next in rank to General Scott, whose presence will be required at the court of inquiry The idea of recalling Scott is abandoned for the present, but it may be renewed"

FROM WASHINGTON.

The correspondent of the N Y Courier and Enquirer, writes under date of Washington Jan. 12th, as follows

Nothing new except Gen Kearney had actually written a challenge to Col Benton, and prepared his pistols, but was prevented by his friends for the present to forbear

The trial is at last brought to a close, but its consequences are yet concealed in the womb of time

All that is known at present is that Col Fremont will no doubt probably be re-appointed Governor of California

The difficulty of appointing a successor to Gen Scott still prevents his name date recall The treaty of peace which was so confidently spoken of, has all vanished again

Cure Fact —no unevidence than the blood is encumbered with morbid humors which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with giddiness, headache, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preparatives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries health and vigor to every part of the system.

Beware of Counterfeits of all Kinds! Some are coated with sugar, others are made to resemble in outward appearance the original medicine The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

Mr Seth W Hinds,

Dear Sir—I am well aware that persons of every age and sex, and of all sizes in life, in every part of the country have found much benefit by the use of

DR. WISTER'S BALSAM OF WILD CHERRY

My own life has been saved by it My father and my mother's family, many both generations by my father, mother and children with other kindred. For many years I have been troubled to a greater or less degree I was quite sick for a number of weeks, confined to my bed to medicine quite in my own mind I should go to lay. Hamburgh's pain caused the disease Liver Complaint, sometimes, and was much enlarged. I used blood several times, as pain in my side was so severe that she could not endure the least by the time I had used one bottle of your Balsam I was much relieved after using two bottles I was entirely relieved of the pain, and my physician, I believe, has attended to my case, and pronounced me entirely cured, and attributed a cure to your valuable medicine, and no other. I was considered in consumption by several physicians, and was not expected to live. For fifteen months I was a most severe sufferer.

CANCER, SCROFULA AND GOITRE.

Ample experience has proved that no combination of medicine has ever been so efficacious in removing the above diseases as Dr JAYNE'S ALTERATIVE. It has effected cures truly astonishing, not only of Cancer, and other diseases of that class, but has removed the most stubborn disease of the Skin, Bronchus, Liver Complaint, Dyspepsia, &c &c This medicine enters into the circulation, and eradicates diseases wherever located —it purifies the blood and other fluids of the body — moves obstructions in the pores of the skin, and reduces the engagements of the glands or bones. It increases the appetite, removes headache and weariness, and invigorates the whole system, and imparts animation to the diseased and debilitated constitution There is nothing superior to it in the whole materia medica. It is perfectly safe and extremely pleasant, and has nothing of the disgusting nausea accompanying the idea of swallowing medicine.

Dr Jayne Sir—I take great pleasure in informing you that the bottle of Hair Tonic which I obtained of you last October, has proved most satisfactory and successful — My head had for a long time been exceedingly thin, but on two or three years past it had so fallen out that my head had become almost entirely bald. I was under the necessity of concealing the baldness by covering the hair on the sides of it But now, after using a bottle of the Tonic, I have as luxuriant a growth of hair as I ever had.

Timber Land for sale.

ABOUT 2500 acres of Timber Land, situated in Township No. 3, 5d Range, west from the east line of the State; the same being an undivided third of the north ½ part of said township. The east and west branches of the Mattawamkeag River pass entirely through the tract making the distance to haul timber comparatively small.
The facilities for getting the lumber to market are unsurpassed, and the expense of driving small, there being those who are always ready to contract to drive logs from this township for from 50 to 37½ cents per thousand feet.
The above property belongs to the estate of a gentleman recently deceased, and payment will be required in cash, or that which will command the same upon the execution of the deed.
Should a partition be desired by the purchaser, commissioners for that purpose could probably be appointed by consent of parties.
The land will be sold with or without the interest in the present Winter operations.

WERE RETAILED in Boston by Gardner Carlton in the short space of six months and a large number have been sold by myself in this city This Stove is not equalled by any other stove in the United States, and the unparalleled sales it has met with fully bespeak its unparalleled merits

HOUSE-KEEPERS should be sure and examine this superior Stove, which has won the admiration of several thousand house keepers the past season. It has more real and useful improvements than all others combined The fire-brick Oven-top has proved to be of great value in absorbing the steam and causing the bread to rise and bake light, equal to the brick oven) The brick is found to be made durable than the iron top. It also equalizes the heat around the oven, and a much more even baking is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Sliding arrangement for broiling, boiling, toasting &c, is complete. The grate clears itself, discharging the ashes into the ash-pit The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small a amount of fuel it requires to perform so great a variety of cooking. ALL-HEALING Ointment,

FOR THE CURE OF Colds, coughs, consumptions; for scrofula, scurvy, and all cutaneous eruptions; for bruises, burns, ulcers, sores of all kinds, and general or local debility

This celebrated Ointment has a most striking effect upon the blood, in cleansing it from all impurities upon the synovial fluid, which lubricates

the joints and thus removes stiffness, sore nessand pain; upon the lymphatic ganglia or glands, promoting the healthy secretion of the lymphone the fluid, and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine and by restoring the tone and function of the urinary organs, thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St Vitus's dance, palsy, paralyses, numbness or want of feeling or power of motion from some local or general affection of the nervous tissue. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated, invaluable and worthily named "ALL-HEALING OINTMENT" The innumerable pains that have been assuaged, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts which have been comforted and cheered by its salubrious efficacy, testifying to the truth of all, and more than all, herein asserted.
